

ORMER MAYFAIR

We are delighted to welcome you back to Ormer Mayfair. In order to provide you with the safest dining experience, we have put additional measures in place for our reopening:

Ormer Mayfair has been adapted to facilitate safe physical distancing for both staff and customers, including limiting the number of staff attending to the table throughout the meal.

Our staff have been thoroughly trained on essential hygiene and respiratory etiquette, physical distancing and appropriate risks associated with operating in a Covid-safe workplace.

Above and beyond our strict usual cleaning protocols, we are doing a deep cleaning of our restaurant after each service. Your table is only occupied once during service and a single-use menu is provided.

We ask you to use contactless payment whenever possible.

A risk assessment has been conducted and our staff are given a daily Covid-19 briefing to ensure we operate safely.

Please keep correct social distancing at all times. Tables have been separated by two metres - above government guidelines.

Please use the sanitiser provided before you enter our restaurant.

We ask our guests to refrain from visiting the restaurant if they are displaying any symptoms of Covid-19, however mild. We may take guests' temperatures prior to entry via a contactless scanner.

Please wash your hands and/or sanitise as often as possible during your visit.
